Contents

Vol 68 No 1 February 1987

1 *F. Pérez-Barriocanal, J. González and A. Esteller*: Biliary lipid secretion in the regenerating liver of the rat

7 *I. Myara, G. Miech, M. Fabre, M. Mangeot and A. Lemonnier*: Changes in prolinase and prolidase activity during CCl_4 administration inducing liver cytolysis and fibrosis in rat

15 *M.R. Lewin, J.G.C. Araujo, J.L.S. Sarmiento, T.P. Barton, A.P. Jayaraj and R.A. Harrison*: Bypass induced liver disease: an experimental study of the effect of post-operative protein supplementation and metronidazole therapy in an animal model

25 *G.M. Wood, P.D. Howdle and M.S. Losowsky*: Organ culture of fetal rat small intestine for testing gluten toxicity: a reappraisal

35 *J. Kocsis, G. Karácsony, S. Karcsú and F.A. László*: Histochemical and ultrastructural study of renal cortical necrosis in rats treated with oestrone + vasopressin, and its prevention with a vasopressin antagonist

45 *P.P.A. Smyth, E.T. Barron, J. Tobbia and N.J. O'Higgins*: Cytochemical investigation of glucose-6-phosphate dehydrogenase activity in rat mammary tissue

53 *T.C. Iancu, H. Shiloh, G. Link, E.R. Bauminger, A. Pinson and C. Hershko*: Ultrastructural pathology of iron-loaded rat myocardial cells in culture

67 *K. Dalziel, P.J. Dykes and R. Marks*: The effect of tetracycline and erythromycin in a model of acne-type inflammation

71 *H. Sandler, H. Hogstorp, C. Lundberg and B. Gerdin*: Antiserum-induced neutropenia in the rat: characterization of a rabbit anti-rat neutrophil serum

81 *J. Schalkwijk, W.B. van den Berg, L.B.A. van de Putte and L.A.B. Joosten*: Elastase secreted by activated polymorphonuclear leucocytes causes chondrocyte damage and matrix degradation in intact articular cartilage: escape from inactivation by alpha-1-proteinase inhibitor

89 *P.H. Hart, L.K. Spencer, N.L. Hill, P.J. McDonald and J.J. Finlay-Jones*: Roles of antibody and complement in the bactericidal activity of mouse peritoneal exudate neutrophils

101 *J.K. Fazakerley and H.E. Webb*: Semliki Forest virus induced, immune mediated demyelination: the effect of irradiation

115 *S.M. Ekizlerian, S.L.B. Filho, I. Tincani, L.M.C. Aves and C.L. Silva*: Studies in the pathogenesis of actinomycotic mycetoma in animals injected with fractions isolated from *Nocardia brasiliensis*

125 *J.G. Hall and H.D. Sinnett*: The functioning in unanaesthetized sheep of the popliteal lymph node after surgical removal of its blood supply

Vol 68 No 2 April 1987

133 *H.E. Driver, I.N.H. White and W.H. Butler*: Dose-response relationships in chemical carcinogenesis: renal mesenchymal tumours induced in the rat by single dose dimethylnitrosamine

145 *M. Février, C. Foa, J. Simonetti, C. Prevot, M. Barad and M. Berebbi*: Phenotypic evolution of CTL B-lines *in vitro*

157 *N.F. Johnson, E.A. Margiotta, J.S. Wilson, R.J. Sebring and D.M. Smith*: Preparation of viable single cell suspensions of tracheal epithelial cells
167 *B.M. Herbertson, A.J. King and J. Allen*: Epithelial cell proliferation in the rat urinary system induced by parenteral injection of lead salts
179 *M.H.M. Kuijpers and W. de Jong*: Relationship between blood pressure level, renal histopathological lesions and plasma renin activity in fawn-hooded rats
189 *J.R. MacDonald, J.H. Beckstead and E.A. Smuckler*: An ultrastructural and histochemical study of the prominent inflammatory response in D(+)-galactosamine hepatoxicity
201 *A. Piriou, R. Maissiat, A. Jacqueson, J.M. Warnet and J.R. Claude*: Ultrastructural changes in the parenchymal liver cells of rats treated with high doses of rifampicin
209 *T. Ozeki, K. Iwaki, H. Masuda and H. Ueda*: The effects in the excess administration of prostaglandin E_1 on the indicator enzymes of organella membrane in gastric mucosa
215 *C.E. Steele, R. Marlow, J. Turton and R.M. Hicks*: In-vitro teratogenicity of retinoids
225 *S. Amor and H.E. Webb*: The effect of cycloleucine on SFV A7 (74) infection in mice
237 *E. Anton*: Delayed toxicity of cyclophosphamide in normal mice
251 *P. Smith, S. Greenberg, D. Heath and J. Gosney*: Effects of glucocorticoids on the rabbit carotid body
259 *D.W. Howat, L.E. Glynn, L. Bitensky and J. Chayen*: The origin of the apparent synovial lining cell hyperplasia in rheumatoid arthritis: evidence for a deep stem cell
267 *D.C. Stokes, F. Gigliotti, J.E. Rehg, R.L. Snellgrove and W.T. Hughes*: Experimental *Pneumocystis carinii* pneumonia in the ferret

Vol 68 No 3 June 1987

227 *G. Ellender and K.N. Ham*: Connective tissue responses to some heavy metals. I. Sodium loaded ion exchange beads as a control: histology and ultrastructure
291 *G. Ellender and K.N. Ham*: Connective tissue responses to some heavy metals. II. Lead: histology and ultrastructure
309 *M. Sjöstrand and R. Rylander*: Lysosomal enzyme activity and fibroblast stimulation of lavage from guinea pigs exposed to silica dust
319 *H. Kanaidé, H. Meno and M. Nakamura*: Metabolic and physical changes during calcium paradox induced in the rat heart
331 *M. Krog, S. Ejerblad, H. Johansson, E. Wilander and A. Ågren*: Hexokinase and adenylate kinase activities in aorta, heart muscle and skeletal muscle from uraemic rats
343 *D.R. Katz, M. Drzymala, J.A. Turton, R.M. Hicks, R. Hunt, L. Palmer and M. Malkovský*: Regulation of accessory cell function by retinoids in murine immune responses
351 *T. Aida, J. Murata, G. Asano, Y. Kanda and Y. Yoshino*: Effects of polyprenoic acid on thermal injury
359 *T.C. Richardson, J.A.H. Humphreys and K.M.S. Townsend*: Subcutaneous implantation of double velour Dacron into the mouse: infiltration and angiogenesis
369 *J. Cornish, M. Vanderwee and T. Miller*: Mucus stabilization in the urinary bladder
377 *T.E. Miller, G. Findon and S. Cawley*: Cellular basis of host defence in pyelonephritis. III. Deletion of individual components
389 *J.C. Thompson and A.C. Johnstone*: The effects of gamma-irradiation on haemopoiesis and red blood cell destruction in hamsters infected with *Leptospira interrogans* serovar *ballum*

399 *J.J. Coalson, V.T. Winter, L.B. Bass, J. Schachter, B.G. Grubbs and D.M. Williams*: *Chlamydia trachomatis* pneumonia in the immune, athymic and normal BALB mouse
413 *F.C.S. Ho and K.H. Fu*: A new model of AA-amyloidosis induced by oral pristane in BALB/c mice
421 *T.K. Nilsson, L. Domellöf and L. Berghem*: Effects of partial hepatectomy on plasma fibronectin concentrations in the rat
427 *R.Y. Ball, K.L.H Carpenter. J.H. Enright, S.L. Hartley and M.J. Mitchinson*: Ceroid accumulation by murine peritoneal macrophages exposed to artificial lipoproteins
439 *K. Jaskiewicz, D. Kritchevsky, F.S. Venter and W.E.T. van Wyk*: The influence of diet and dimethylhydrazine on the large intestine of vervet monkeys: scanning and transmission electron microscope studies
453 *T.C. Ford, T. Lai and M.O. Symes*: Morphological and functional characteristics of mouse mammary carcinoma cells separated on Nycodenz columns
461 *R.A. Cobb and H.W. Steer*. Tumour cell trapping in rat mesenteric lymph nodes

Vol 68 No 4 August 1987

475 *D.J. Winton and B. Flaks*: Fine structural alterations induced in the rat hepatocyte by adrenalectomy: influence of deoxycorticosterone acetate or fasting
485 *D. Magielska–Żero, H. Rokita, K. Cieszka, A. Kurdowska, A. Koj, J.D. Sipe and J. Gauldie*: Comparison of the acute phase response of cultured Morris hepatoma 7777 cells and of rat hepatocytes
493 *B. Persky, C.C. Huerta and M.J.C. Hendrix*: Morphological characterization of cellular and extracellular components of 7,12 dimethylbenz[a]anthracene induced melanoma tumours
501 *J.A.M. Gall and P.S. Bhathal*: Isolation and culture of intrahepatic bile ducts and its application in assessing putative inducers of biliary epithelial cell hyperplasia
511 *K. Doi, K. Honjo, S. Itagaki, C. Doi and T. Mitsuoka*: Factors influencing the incidence and severity of swine-serum-induced bile duct lesion in mice
521 *T. Ozeki, S. Mizuno, H. Ohuchi, K Iwaki, S. Watanabe, H. Ueda, H. Kawahara, H. Masuda and H. Sanefugi*: The effects of prostaglandin E_1 on the pepsin activities in gastric mucosa and juice
527 *P.N. Furness and D.R. Turner*: An assessment of the influence of antigen dose in two new models of chronic serum sickness glomerulonephritis in the rat
539 *Fa-rong Lin, Xiu-mei Wang, H.S. Hsu, V.R. Mumaw and I. Nakoneczna*: Electron microscopic studies on the location of bacterial proliferation in the liver in murine salmonellosis
551 *J.G.R. Elferink*: The mechanism of calcium oxolate crystal-induced haemolysis of human erythrocytes
559 *F.B. De Brito, A.R. Moore, D.G. Corry and D.A. Willoughby*: A time course study of the changes that occur to the subcutaneous model of synovium following polyarthritogen
569 *F. Arnold, D. West and S. Kumar*: Wound healing: the effect of macrophage and tumour derived angiogenesis factors on skin graft vascularization
575 *T.E. Miller, J.P. Lecamwasam, D.J. Ormrod, G. Findon and J. Cornish*: An animal model for chronic infection of the unobstructed urinary tract
585 *C. Claoue, T. Hodges, T. Hill, W. Blyth and D. Easty*: The histology of the eye after zosteriform spread of herpes simplex virus in the mouse

595 *S. Aydar, K. Yeşilçimen, S. Numanoğlu and A. Sönmezdağ*: Platelet lymphocyte adherence in children after surgery
601 Brief communication
J. Hart: Oestrogen toxicity in the ferret
603 Book review

Vol 68 No 5 October 1987

605 *T. Ozeki, S. Mizuno, H. Sanefuz, N. Tanaka, H. Fujiwara, H. Masuda and K. Funakoshi*: Localization of hepatitis B core antigens in chronic active hepatitis using immunoperoxidase and chromotrope aniline blue staining
613 *K.M. Knights, G.K. Gourlay, P. de la M. Hall, J.F. Adams and M.J. Cousins*: Halothane hepatitis in an animal model: time course of hepatic damage
625 *P.K. Garbett and J.R. Gibbins*: Experimental neovascularization *in vivo*: the early changes in a stable adult vasculature responding to angiogenic stimulation by a syngeneic neoplasm
637 *P. Polterauer, H. Sinzinger and B.A. Peskar*: The influence of irradiation on the biological half-life of prostacyclin in plasma of patients with gastrointestinal cancer
643 *M.R. Stratton, J.M. Martin and P.L. Lantos*: The effects of interferon on glial cells
655 *P.M. Lamont, K.G. Maier, L. Melton and H.C. Polk, Jr*: Stimulatory effects of muramyl dipeptide upon neutrophils isolated from a local bacterial infection
663 *D. Lio, F. Dieli, E. Cillari and A. Salerno*: Suppression of contact sensitivity by a plastic adherent T-cell, induced in mice infected with Newcastle disease virus (NDV)
675 *F.B. De Brito, A.R. Moore, M.J.G. Holmes and D.A. Willoughby*: Cartilage damage by a granulomatous reaction in a murine species
687 *J.A. Sosa-Melgarejo and C.L. Berry*: In-vitro demonstration of a complicated atherosclerosis-like lesion
695 *Y. Sado and I. Naito*: Experimental autoimmune glomerulonephritis in rats by soluble isologous or homologous antigens from glomerular and tubular basement membranes
705 *P.A. Shields and P.K. Jeffery*: The combined effects of vitamin A-deficiency and cigarette smoke on rat tracheal epithelium
719 *M.A.L. Maley, A.K. House. D.J. Jenkyn and M.V. Agrez*: Three new rat colon tumour cell lines from 1,2-dimethylhydrazine induced adenocarcinomas: morphology, karyotype and clonogenicity
727 *H. Halliday, B. Robertson, R. Nilsson, J.-P. Rigaut and G. Grossman*: Automated image analysis of alveolar expansion patterns in immature newborn rabbits treated with natural or artificial surfactant
733 *U. Barros, U. Ladiwala, T.J. Birdi and N.H. Antia*: Localization and retention of mycobacterial antigen in lymph nodes of leprosy patients
743 *M. Schuyler, S. Subramanyan and M.O. Hassan*: Prolonged exposure to *M. faeni* in strain II guinea-pigs: pulmonary interstitial inflammation

Vol 68 No 6 December 1987

755 *S.P. Andrade, T.-P.D. Fan and G.P. Lewis*: Quantitative in-vivo studies on angiogenesis in a rat sponge model
767 *C.S., Thompson, D.P. Mikhailidis, J.Y. Jeremy, J.L. Bell and P. Dandona*: Effect of starvation on biochemical indices of renal function in the rat
777 *P.H. Whiting, N. Barnard, A. Neilsch, J.G. Simpson and M.D. Burke*: Interactions between cyclosporin A, indomethacin and 16,16-dimethyl prostaglandin E_2: effects on renal, hepatic and gastrointestinal toxicity in the rat
787 *F. Pérez-Barriocanal, A. Esteller and J.G. Gallego*: Relationship between biliary calcium and bile acid secretion in the regenerating liver of the rat
793 *T.W. Speer, R.S. Rosenthal, T.J. Fleming and B.L. O'Connor*: Histological examination of experimental arthritis induced by gonococcal peptidoglycan
803 *S.A. Feik, E. Storey and G. Ellender*: Stress induced periosteal changes
815 *R.D. Goldin and S.N. Wickramasinghe*: Hepatotoxicity of ethanol in mice
825 *A.J.F. Luty, C.D. Mackenzie and N.A. Moloney*: Secondary amyloidosis in normal and immunocompromised mice infected with *Schistosoma japonicum*
839 *Yat-Sen-Ho, Chu-Zung Huang and Yen-Chang Tu*: A monoclonal antibody (HO-No-1) with specificity for a human nucleolar protein
847 *Y. Shinkai and J.S. Cameron*: Trial of platelet-derived growth factor antagonist, trapidil, in accelerated nephrotoxic nephritis in the rabbit
853 *J. Liesivuori, V.-M. Kosma, A. Naukkarinen and H. Savolainen*: Kinetics and toxic effects of repeated intravenous dosage of formic acid in rabbit
863 *E. Wiener, R. Dang, L. Levy and S.N. Wickramasinghe*: Biochemically damaged erythroblasts bind natural serum antibodies and activate complement
871 *V.M. Shah, J. Newman, J. Crocker, G.N. Antonakopoulos, C.R. Chapple and M.J. Collard*: Production of β-human chorionic gonadotropin by prostatic adenocarcinoma and transitional cell carcinoma of the upper urinary tract
